PROFILE

Engineering Manager with 13+ years of experience building scalable, cloud-native platforms across fintech, healthcare, trade finance, and ed-tech domains. Currently building an AI-first engineering culture — shipping LLM-powered document extraction and agentic underwriting workflows in a production loan origination platform. Hands-on leader in Java, Spring Boot, Microservices, and AWS, leading teams of 20+ engineers across geographies.

TECHNICAL SKILLS

Languages & Frameworks: Java, Spring Boot, Hibernate, Angular, REST APIs, GraphQL
Cloud & Infrastructure: AWS (Lambda, EMR, Aurora, S3, SQS, SNS), Docker, Serverless
Databases: PostgreSQL, MySQL, Oracle DB, MongoDB
Messaging & Streaming: Apache Kafka, AWS SQS, AWS SNS, TIBCO EMS
AI & Agentic: AWS Bedrock, Agentic AI, RAG, MCP, LLM Integration, GitHub Copilot, Cursor AI, Claude Code
DevOps & Tools: CI/CD, Jenkins, Git, Maven, Selenium, TestNG
Practices: Microservices, Event-Driven Architecture, System Design, Agile, SAFe

PROFESSIONAL EXPERIENCE

Engineering Manager | Rahi Platform Technologies, Pune | Nov 2025 - Present

Leading development of a cloud-native Loan Origination Platform for banks, NBFCs, and fintechs - covering the full lifecycle from application and KYC through underwriting, decisioning, and disbursal.

- Designed the microservices architecture — decomposing the loan lifecycle into independently deployable services with high-throughput processing
- Designed and implemented a scalable event-driven architecture for loan workflows, enabling reliable asynchronous processing and portfolio-specific configurable workflows.
- Architected and integrated agentic LOS use cases from scratch, including KYC OCR, speech-to-text, and bank statement analysis, using AWS Bedrock.
- Established workflow orchestration for loan processing flows and configurable credit eligibility rules, significantly reducing manual intervention
- Integrating third-party APIs for KYC (UIDAI, CKYC), credit bureaus (CIBIL, Experian), and e-sign providers with retry, idempotency, and audit logging
- Leading a team of 20+ engineers across frontend, backend, and platform, driving end-to-end delivery from architecture to production
- Delivered platform MVP rapidly — onboarded multiple client organizations in the first quarter of launch
- Establishing engineering standards, leading Agile/SAFe ceremonies, and instituting code review practices across the team

Senior Lead, Engineering | ZS Associates, Pune | Oct 2021 - Nov 2025

Owned backend engineering for ZAIDYN IC Ops, a cloud-based SaaS platform automating incentive compensation for pharmaceutical sales teams across global healthcare clients.

- Managed 20+ engineers across 3 scrum teams in 2 geographies (US and India), owning end-to-end delivery of services impacting a large user base across client organizations
- Reduced sprint duration from 2 weeks to 1 week, increasing delivery velocity and tightening feedback loops
- Drove DevOps improvements that significantly reduced deployment time and enhanced CI/CD pipeline reliability
- Led infrastructure cost optimization initiatives, reducing cloud spend while improving reliability and SLA adherence
- Mentored engineers across levels through regular 1:1s, drove hiring, and built a culture of ownership and career growth

Technical Lead | **Bajaj Finserv Direct Ltd. (Finserv MARKETS), Pune** | **Jan 2020 - Oct 2021**

Led design and development of high-throughput payment, rewards, and compliance systems for Finserv MARKETS.

- Led a team of 8 engineers across backend and integration workstreams, owning technical design and delivery of payment and rewards microservices
- Delivered 6 major product integrations - BBPS bill payments, UPI, multi-gateway payment abstraction (PayU and Razorpay), real-time rewards engine, e-sign, and webhook infrastructure — payment systems built for high throughput and reliability
- Rewards engine processed high volumes of real-time reward events with rule-based issuance and zero double-credit incidents
- Collaborated with Product, QA, and InfoSec to ensure secure, RBI-compliant delivery of all payment APIs
- Received Hero of the Moment and Ace of Initiative awards

Technology Analyst | **Infosys, Pune** | **Aug 2018 - Jan 2020**

- Developed Java-based backend services across multiple trade finance modules for TRIMS, an enterprise trade finance platform for global banking clients managing trade instruments from registration through settlement
- Reduced transaction processing latency through targeted SQL query optimization and backend code refactoring
- Contributed to architecture redesign that improved system scalability and ensured full audit compliance for global banking clients
- Recognized as Star Performer of the Month

Founder | **ClerisyHub (Startup), Lucknow** | **Apr 2017 - Aug 2018**

- Founded an ed-tech startup and built a multi-platform ecosystem (web, Android, desktop) from scratch - owned full product lifecycle from ideation through deployment
- Hired and managed a cross-functional team to ship core features under tight timelines

System Engineer | **Tata Consultancy Services (TCS), Chennai** | **Jan 2013 - Apr 2017**

- G2C: Developed middleware integrations consolidating banking operations across multiple countries into a single unified codebase; reduced country-specific code duplication through shared service abstractions and TIBCO-based SOA middleware
- ITS: Built an automated regression framework enabling concurrent testing alongside active development, significantly increasing test coverage across critical modules
- Received On the Spot, Star Performer, and Star of the Month awards

CERTIFICATIONS

- AWS Certified Solutions Architect
- Certified SAFe 6 Agilist

EDUCATION

B.Tech, Computer Science and Engineering

Bharat Institute of Technology, Meerut (U.P.T.U.) | 2008 - 2012

AWARDS

- **Total Experience Champion** - ZS Associates
- **Learning Champion** - ZS Associates
- **Hero of the Moment** - Bajaj Finserv Direct Ltd.
- **Ace of Initiative** - Bajaj Finserv Direct Ltd.
- **Star Performer of the Month** - Infosys
- **Star Performer** - Tata Consultancy Services
- **Star of the Month** - Tata Consultancy Services
- **On the Spot** - Tata Consultancy Services
- **NCC 'A' Certificate (Sergeant)** - National Cadet Corps
